When asked where she found her inspiration, Mary replied: "There are so many things that inspire me to be creative, living in such beautiful countryside being one of them. Nature is constantly inspiring; observing the way flowers and leaves are formed, the way light affects an object creating a sparkle on water or a raindrop on a petal. I am constantly aware of colours and their depths and densities; trying to capture their translucent qualities in my use of colour is a big part of my work."

As well as creating spectacular hand painted silks with an inventive twist, Mary also designs and creates Wall Art, Clocks, Table mats, Coasters and much more!

With valentine's day just around the corner, why not treat someone special in your life to a piece of Mary's unique, stunning range of handmade jewellery which includes sparkly earrings, necklaces, rings, and more. There are also lovely sparkly cuff links for your valentine. Colourful, sparkly, and very light to wear, each piece of jewellery is lovingly made using Mary's painted silks which reflect the light beautifully: with some jewellery even being reversible with a different colour on the back.

"My jewellery is perfect for special occasions like valentine's day, Mothering Sunday, birthdays and Christmas - or just because it's full of colour, fun and totally unique." Mary also welcomes the opportunity to quote you for a complete bespoke service matching and complimenting your interiors: "You can order anything you see in the shop in sizes and colours to suit you and can send pieces of fabric, paint swatches, colours from magazines etc to inspire an amazing original wall panel, wall block. or a set of sparkling table mats. Anything you can imagine."

Receiving the ONLINE AWARD FOR SPECIALIST ART & DESIGN 2012 serves as a distinguishing factor that ranks SPARKLY MARY amongst the best in its field, as well as acting as a seal of approval to prospective clients.
