STRONG, SIMPLE AND SUCCESSFUL FOR ALL SLOT SEEDING SITUATIONS!

SEEDMATIC'S original Baker Boot Design Vibrating tine with slicing Baker blade coulter creates a smear-free, cocoon shaped mini seedbed. Competing plants have their roots pruned while the inverted T-slot traps humidity, stimulating germination even in dry soils.

The SEEDMATIC can carry out all seeding jobs on the farm. It will penetrate into existing pasture, hard un-tilled, stoney and rocky, poorly prepared and cultivated soils. Run out or tired pastures can be replaced or supplemented with more productive or drought resistant species.

## EQUESTRIAN FOCUS

### IMPROVE YOUR HORSE SKILLS

Teaches all levels from Novice to Competition

Draw has transformed my tricky mare with his uniquely sympathetic approach. She's quite the dressage horse now. Some may find his style quirky or unconventional but he has almost a sixth sense when it comes to horses.
