

AWARENESS CAMPAIGN ON MEDICAL NEGLIGENCE & PERSONAL INJURY

THE WOOD GLAISTER PARTNERSHIP

Providing Specialist Legal Support for Medical Negligence & Personal Injury Claims

On a NO WIN...NO FEE Basis

Have you had an accident on the road as a driver, pedestrian, passenger, motorcyclist, pillion passenger or cyclist? Perhaps you have recently given birth and you feel that mistakes were made in the excitement, confusion and trauma of the birth. Or you maybe one of 100,000 people in the UK that undergo Plastic Surgery each year but in your case complications and poor healthcare resulted in disfiguration or worse. A medical misdiagnosis for any form of health issue can and does occur and sometimes there is simply a delay in making the correct diagnosis, resulting in a delay in treatment for a condition that can be detrimental to the patient's health if left untreated. If you can relate to any of the above or feel you could claim compensation on the basis of *Medical Negligence* or *Personal Injury* then you should seriously consider contacting a specialist Solicitor to act on your behalf.

Established in 1984, **The Wood Glaister Partnership** is a firm of Solicitors, based in Solihull, that ticks all the right boxes for people looking to make a claim for *Medical Negligence* or *Personal Injury*. By drawing on the skill and expertise of the firms' nine qualified Solicitors, **The Wood Glaister Partnership** is able to offer a wide spectrum of services covering Commercial Property, Residential Conveyancing, Matrimonial Law, Family Law, Employment Law, Personal Injury, Medical Negligence, as well as general and commercial litigation and probate.

In a recent interview, Chris Parry Partner in the firm and Head of its *Medical Negligence & Personal Injury Department* let us in on the secret to the firm's year-on-year success:

"WG solicitors boasts a dedicated Medical Negligence and Personal Injury Department which specialises in helping to obtain the maximum possible level of compensation for accident victims. I have been involved in this work for over 20 years. All the personal injury work that we undertake at WG is on a no win, no fee basis, including medical negligence work. We are happy to provide our personal injury and medical negligence clients with a written guarantee that there will be no deductions or payments whatsoever, win or lose, regardless of the outcome of the case. This means that accident victims and victims of medical negligence can seek the compensation that they deserve without any financial risk"

The firm offers office appointments during the evening and at weekends for those who find it difficult to attend during normal office hours. There is free on-site parking for clients attending interviews. The firm is also happy to offer telephone appointments for clients who are unable to attend at the firm's offices.

Are you considering claiming compensation for injuries that you have suffered because of an accident or poor medical treatment?

If so, contact Chris Parry at Wood Glaister to talk about your claim. You will find details of how to contact him in the advert which appears on this page. Chris will be happy to discuss your case with you and answer any questions that you may have.

Chris has specialised in claiming compensation for accident victims for over 20 years. During that time, he has gained a great deal of experience in this field of law but has also come to realise that customer care and service are just as important as technical expertise when acting for a client. He appreciates that what to him is an everyday question or situation can appear daunting and complex to a client who has never had dealings with the legal world before.

Chris understands that the effects of having an accident or discovering that you have been the victim of a medical error can be devastating – emotionally, physically and financially. He and his team will fight on your behalf to obtain the maximum possible amount of compensation but, just as importantly, will guide you through every step of your claim, providing support as well as expert legal advice.

Some of the most common questions asked by clients are:

Are there any hidden charges for your services?

No. Your case will be run on a NO WIN, NO FEE basis and we GUARANTEE that there will be no deductions or payments, win or lose. You get to keep 100 per cent of any compensation that we recover for you.

I have been injured by an uninsured/untraced driver. Can I still claim?

Yes. In these circumstances, compensation is paid by a body called the Motor Insurers' Bureau instead of the other driver's insurance company.

I have been injured at work. If I bring a claim against my employer, will my job be at risk or my career prospects affected?

Many clients are reluctant to pursue a claim against their employer for fear of reprisals or concern that it may affect their career.

Experience has shown us that such concerns, whilst entirely understandable, are groundless. There are strict laws preventing harassment or discrimination against employees who pursue compensation claims against their employers and in any event, all employers carry compulsory insurance covering employees who suffer injury through accidents at work which are the fault of the employer.

In practice, such claims are dealt with almost entirely by the insurer and not the employer.

I think I was injured or made ill by poor medical treatment. How do I go about proving this?

In order to succeed in cases of this type, it is necessary to obtain a report from a medical expert confirming that the treatment was not of an acceptable standard.

The selection of the right medical expert to consider your case is vital. Due to our extensive experience in this area of law, we have access to respected independent medical experts in all areas of medicine who understand the issues involved and can assess the treatment given and advise on the prospects of your claim succeeding.

Incidentally, many clients do not appreciate that such claims are not confined to poor treatment provided by GPs and hospitals but cover negligence by any professional who has treated or advised you in relation to any aspect of your health (for instance a dentist, chiropractor or optician).

Please note that the Wood Glaister Partnership also offers an efficient and professional service in relation to Will Preparation and Probate matters, Family and Matrimonial Disputes and Conveyancing transactions.

Our conveyancing department has recently acted for the purchaser of the first £1,000,000 apartment to be sold in Birmingham.

Please note that The Wood Glaister Partnership also offers an efficient and professional service in relation to Will preparation and Probate matters, Family and Matrimonial Disputes and Conveyancing transactions

EFFICIENT - FRIENDLY - PROFESSIONAL
